

OCEAN ACIDIFICATION

Name:

What is a "normal" pH level in the ocean?

GRAPH 1

sketch your graph:

Are the pH levels consistent at every depth?

What is the average pH level?

OCEAN ACIDIFICATION

GRAPH 2

sketch your graph:

Are there differences in pH level between days?

What is the average pH level?

Now, looking back at the pH levels collected from research, how does the float pH data compare to the expected levels?
