

Adopt-a-Float Newsletter

Welcome to the Adopt-a-Float program! We are looking forward to having you join us as we watch the floats on their journey through the ocean.
(we could have an opening message each month or take it out if there isn't any big general information to share)

Date: November 1, 2021

Number of Floats Deployed: 2 floats deployed this past month

Float of the Month!

Three floats are currently out at sea - *Levi* has been launched and one other one has well but we haven't gotten confirmation if it was *Determination* or *Flabellina iodinea* that got wet. We'll keep you updated!

"Levi"
El Camino High School

Update

We have 9 more floats leaving dock this month and 19 in December so things are ramping up. We also wanted to tell you that we are accepting applications for our educator professional development workshop in July (25-29), 2021 at Univ. of Washington. For more information see www.mbari.org/EARTH

I'll try and get you November's newsletter in November! Hope your Halloween was good and Thanksgiving is better.
