

Adopt-a-Float Newsletter

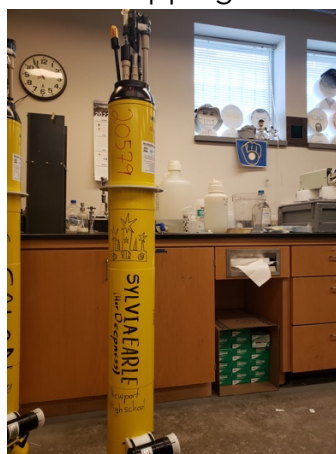

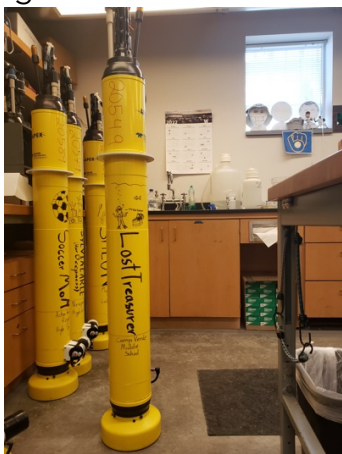

Welcome to the Adopt-a-Float program! We are looking forward to having you join us as we watch the floats on their journey through the ocean.

Date: July 19, 2022

Number of Floats Deployed: 12 in May/June

Floats of the Month!

The PO2 expedition has ended and 14 floats were deployed! <https://www.go-bgc.org/expedition-logs/north-pacific-2022>. There are five floats on board the **RV Sikuliaq** that are being launched this month but nobody is onboard to document the launch. Luckily the incredible engineers at Univ. Washington were able to decorate the floats before shipping them up to Alaska.

Floats being launched from the **RV Sikuliaq** but decorated in the laboratory at University of Washington before deployment. Floats: *Salon*, *Sylvia Earle*, *Soccer Mom*, *Lost Treasurer*, and *Squeezing Time*.

Update

The GO-BGC educator workshop will be underway in July (<https://www.mbari.org/products/educational-resources/earth/earth-workshops/earth-2022/>) up in Seattle. Keep an eye on the workshop website as we develop lesson plans around the data from the GO-BGC floats.

Find your float information here: http://go-bgc.ucsd.edu/GOBGC_Adopt-a-Float.html or http://socom.ucsd.edu/SOCCOM_Adopt-a-Float.html
