

Adopt-a-Float Newsletter

Welcome to the Adopt-a-Float program! We are looking forward to having you join us as we watch the floats on their journey through the ocean.

Date: June 16, 2023

Number of Floats Deployed in May and June so far: 17

Float of the Month!

Here's the wonderful winner of the 2023 sticker contest. Drawn by Logan Milochik of Stone Valley Middle School in Alamo, California, Logan says "I came up with the idea when I was in history class and we were talking about the ocean and the many treasures and ancient things that hide below the surface. Then I thought of how floats go under the surface and collect data from the ocean and how the data is like the history and treasures of the ocean."

Update

Apologies for missing the May newsletter, I missed the June newsletter from last year so I guess that evens it out since I am sending the June newsletter this year! We have a number of floats that were not launched over the last few months for a variety of reasons but we are starting to ramp up again so if your float has not

yet launched - it should soon! I will send you an email when it is launched and we are posting additional photos on the flickr pages so check them out. Have a great summer.

Find your float information here: http://go-bgc.ucsd.edu/GOBGC_Adopt-a-Float.html or http://socom.ucsd.edu/SOCCOM_Adopt-a-Float.html
